

APRIL 2019

# Plebeian

Dear Reader,

We thank you so much for being a part of the first digital exhibition by Plebeian, Inc. We have worked extremely hard and have gotten an incredible response from all of you as we've gotten this together. This first exhibition is a collection of our favorite works on the forum as of April 30, 2019. All of the work submitted was excellent and we can't wait to see more. Please don't be discouraged if you weren't selected, understand we can only put in so much. We will be curating these shows every month and we will be getting more and more creative with display, format, curation and theme. With your support and artwork the sky's the limit for these shows and we want to push this as far as we can. We're here to support all of you, we're artists looking to promote other artists, so post away, we want to see it all and share it with the world.

This is just the beginning for Plebeian as a site and publication, and your incredible engagement has allowed us to take this off faster than we could have expected. We want to see all artists succeed, whether it's in school, starting out professionally, or an established practice we will work tirelessly to promote you and make you successful. Art is our lives and we want to make sure that it can be yours too. Here's to an amazing start and a promising future.

Thank you,  
Plebeian, Inc.
